Tourism, Ethnic Diversity and the City May 30 2020 Tourism, Ethnic Diversity and the City fills a gap in existing research in terms of how immigration relates to urban tourism and investigates the new theoretical insights and challenges for empirical research using informative case studies drawn from several advanced economies in Europe, North America and Australia. This enlightening book clearly explores the frontiers of knowledge on the interrelationship between tourism, migration, ethnic diversity and place. Exploring further the manifestations of ethnic diversity that have been commodified by immigrants in gateway cities, questioning how these expressions of culture can be transformed into vehicles for further developing the urban tourism economy. Tourism, Ethnic Diversity and the City presents a multidisciplinary approach drawing on key names from the field of geography, sociology, planning and political science and will appeal to those with an interest in any of these areas.

Tourist Health, Safety and Wellbeing in the New Normal Jul 01 2020 The COVID-19 pandemic has changed the face of international and domestic tourism and sharply focused attention on the importance of tourist health, safety and wellbeing like never before. This book offers a unique perspective on the challenges facing the world's largest service industry to protect and care for customers in a rapidly evolving environment where borders have closed, social distancing rules apply and personal hygiene has become a key focus in everyday life. Yet tourism is a very resilient industry and history shows there is always an immediate surge toward recovery after a crisis has passed. Humans want to travel and see the world. While we appreciate that the pandemic is far from over, already there are reports of pent-up demand for travel as restrictions ease at some destinations and borders begin to open. As we move hopefully toward the recovery phase and people begin to move around for business and pleasure, this book presents the reader with key information and insights in both traditional and emerging areas of tourist health, safety and wellbeing, recognising that the world is now shaped by this pandemic, bringing change, potentially enduring benefits and lasting legacies.
